

SOAR Into Fall

Securing Older Adult Resources (SOAR) is a program of the Maryland Consumer Rights Coalition that works to improve the financial well-being of older adults through the Age-Friendly Banking framework. We advocate banks and government entities to create banking products, services and trainings that facilitate aging with dignity while also educating older adults on financial issues and connecting them to local non-profits including legal services, housing counseling, benefits and economic checkups and more. In Fall 2015 we are hosting a series of SOAR events around Baltimore. Come to the one nearest you!
